Professional Summary

Customer service professional with 5+ years of experience, currently applying AI tools to deliver faster, more accurate support without losing a human touch. Cut email response times nearly in half using AI-assisted workflows while maintaining strong customer satisfaction. Currently completing the FlyRank AI Internship Program, building practical AI-integration skills across customer service, content workflows, and simple web deployment.

Experience

Customer Service Representative — *HealthGarde International*

2020 – Present

- Handle daily customer enquiries covering order tracking, product questions, complaints, and refund requests for a health and wellness company.
- Introduced an AI-assisted email workflow that cut average response time from 20–30 minutes to 10–12 minutes per email, without sacrificing tone or accuracy.
- Maintained strong customer satisfaction ratings over a sustained 3-month period while using the new workflow.
- Handle escalated and upset-customer cases personally, reserving judgment calls for a human rather than automating them.

Safety Officer — *Rooster Home Fields*

2018 – 2020

- Monitored workplace safety compliance and procedures on-site.

Customer Service Representative — *PAJEDO Engineering Services*

2014 – 2018

- Handled customer enquiries and front-facing service for the company's engineering operations.

Personal Project

Empathic Listening Practice Companion — an independent AI-assisted project helping people practice being present, listening without judgment, and responding with real understanding, rather than jumping to advice.

Skills

- AI-assisted customer service workflows (drafting, critique, revision)
- Prompt engineering / custom AI instructions
- Order and account troubleshooting
- Clear, warm written communication
- Basic web deployment (GitHub Pages, HTTPS hosting)
- Empathic listening practice

Education

Bachelor of Forestry and Environmental Management — Michael Okpara University of Agriculture, Umudike, Abia State (2005 – 2011)

Currently

Completing the FlyRank AI Internship Program — an 8-week program applying AI to real customer service and portfolio-building work, including building and deploying a personal website and a working AI agent.
